

Student Senate

Students participate in the planning and decision-making activities of the University in various ways. The Student Senate was formed to provide a timely and efficient manner to disseminate information. One student from each program volunteers to represent their program on the Senate. The members serve as the primary link between the administration and the program groups. The Student Liaison Chair is a member of the Senate and attends meetings with the Dean of Student Services and communicates on a regular basis with other members of the Sofia University administration.
