

# MTP8299 : Certificate Integration/Artistic Presentation

To conclude the Dream Studies certificate, students will write an integration paper and give an artistic presentation in this course. One virtual session will be scheduled at the beginning of the course where students will have the opportunity to share their insights and experiences in the Dream Studies Certificate program and discuss their ideas for artistic presentations. Students will work on their integration papers and artistic presentations independently during the term. At the end of the term the final virtual gathering will include all DSC students sharing their artistic presentations. The integration papers and artistic presentations will uniquely express what the students have learned about studying dreams throughout this certificate program at Sofia.
