

MLR5026 : Advanced Career Development (LPCC Focus)

This course builds and expands on Career Development A. It will include deeper study of career development theories and techniques, including career development decision-making models and interrelationships among and between work, family, and other life roles and factors that affect both normal and abnormal behavior. The focus is on career counseling competencies expected of Licensed Professional Clinical Counselors. This course is a requirement for all LPCC-track students and an elective for LMFT-track students.

Credits 3
